

Water Conditioning for the 21<sup>st</sup> Century  
Eco-Friendly – Maintenance Free – 5 Year Ltd. Warranty

## Overview of the Ecoflow Water Conditioner

The Ecoflow Water Conditioner is a new innovation in water conditioning. The Ecoflow Water Conditioner is, as the name suggests, a "water conditioner", not a "softener" nor a "filter". The foundation of the Ecoflow is the scale controlling media, made from ceramic-metallic materials.

Within the Ecoflow a three phase conditioning process is achieved:

- 1. Polarization:** In the first stage, water passes into the unit through flow modulators that polarize the water stream along with the materials contained within it. This action formats the water so that the following process can impact the water stream more completely.
- 2. Oxidation Reduction (Redox Process):** The propensity and ability for water to scale and harden through oxidation is reduced as water flows over the Nano-Technology developed Ceramic Media that contains a matrix of minerals and rare earth elements.
- 3. Ionization:** As the water stream passes over the Ceramic Media, the electron fields of the materials within the water stream overlap with the electron fields of the materials contained within the Ceramic Media. The exchange of ions is encouraged and enhanced. The turbulent water flow through these materials creates a self-generating Piezo-Static-Electric charge that aids the entire process.

The Ecoflow Water Conditioner has many positive Benefits in various industries:

- Reduce and Prevent Scale Formation.
- Inhibit Hard Water Corrosion.
- Increases Soil Permeability.
- Reduces Chloride Levels in Soil Growth Layers.
- Reduction in Water Usage.
- Extends the Lifespan on all Water Related Equipment e.g., Heating and Hot Water Systems, Water Pump Systems etc.

The Ecoflow Water Conditioner can reduce, eliminate or improve water related problems that can impact homes, farms and businesses without using salts, chemicals, electricity and maintenance. The Ecoflow Water Conditioner comes with a 5 Year Limited Warranty against Defects in Materials and Craftsmanship when used under normal conditions which intended, offers peace of mind on your investment into your personal property or business.

The Ecoflow has a wide range of Applications for many Industries which can benefit from improved water conditioning such as but not limited to the following examples:

### Commercial & Industrial

- Airports
- Beverage Makers
- Canneries
- Car Wash Facilities
- Convalescent Facilities
- Fire Departments
- Hospitals
- Police Stations
- Prisons
- Retirement/Rest Homes
- Schools
- Swimming Pools

### Agriculture

- Aquacultures
- Dairy/Livestock Farming
- Farm Crops
- Greenhouses
- Nurseries
- Poultry Farming

### Housing

- Apartment Units
- Condos
- Duplexes
- Single Family Homes

### Food

- Bakeries
- Fast Food Restaurants
- Gourmet Restaurants

### Hotel/ Resorts

- Amusement/Theme Parks
- Casinos
- Hotels

### Sports

- Baseball Fields
- Football/Soccer Fields
- Golf Courses/Ranges
- Horse Race Tracks
